If I leave the day before or the day after another K2,500 will be charged.

looking forward to hearing from you .

# Korean spa

Essentially, you can think of it as a sort of deep cleanse for your scalp to remove any impurities such as dirt, oil, or dead skin cells through gentle exfoliation, soaking, and steaming using special devices and products.

Korean head spa treatments even improve the condition of your hair and make it softer! Your hair follicles, which eventually form into hair strands, grow from your scalp, so cleaning and treating the scalp will not only help keep your scalp healthy, it will also keep your hair healthy! As you sink into a plush chair, our expert staff begin to work their magic, using a blend of massage techniques to ease away tension and stress from your scalp and body. The soothing touch of their hands and tranquil environment creates a powerful sense of relaxation and renewal, as you feel your worries melting away.

Our treatments rejuvenate your scalp, ensuring it feels refreshed, clean, and balanced-leaving both your scalp and hair feeling refreshed

# MASSAGE

A close-up photograph of a person's head and shoulders. A hand with dark-painted fingernails is gently massaging the person's scalp. Steam is visible, rising from the person's hair and face, suggesting a steam treatment. The lighting is soft and warm.

During the treatment, our skilled therapists use a combination of specialized techniques, including scalp exfoliation, soothing massage, and invigorating steam, to cleanse and nourish the scalp. This meticulous process helps to remove buildup, stimulate blood circulation, and create a healthy environment for hair growth. The result? A refreshed scalp, revitalized hair, and a deeply relaxed state of mind.

## Benefits of Korean Headspa

A Korean Headspa offers a range of benefits that go far beyond traditional hair care. Here's why it's a must-try experience:

**Deep Relaxation:** Life can be hectic, but our Korean Headspa provides a perfect escape. Our trained therapists use gentle, rhythmic massage techniques that work to release tension from your scalp, neck, and shoulders, promoting an overall sense of calm and relaxation. The experience is designed to soothe both your body and mind, allowing you to let go of stress and embrace a peaceful state.

# MASSAGE

A close-up, split-screen photograph of a woman receiving a head massage. The left side of the image is in shadow, showing the back of her head and the hands of the masseuse. The right side is brightly lit, showing the woman's face with her eyes closed in relaxation. A white, textured towel is draped over the back of her neck and shoulders. The overall atmosphere is calm and therapeutic.

Enhanced Scalp Health: A healthy scalp is the foundation of beautiful hair. Our Korean Headspa deeply cleanses the scalp, removing impurities, excess oil, and product buildup that can cause common scalp issues such as dryness, oiliness, and dandruff. The nourishing products used during the treatment are packed with essential nutrients that help balance the scalp's natural oils, improve hydration, and maintain overall scalp health.

# MASSAGE

Stimulated Hair Growth: Our Headspa treatment goes beyond pampering; it actively supports hair health. By improving circulation and delivering targeted nutrients, the treatment stimulates hair follicles and encourages healthy hair growth. Whether you're looking to improve thinning hair or simply want to maintain a full, vibrant mane, this treatment can make a noticeable difference.

- Improved Hair Texture: Say goodbye to dull, lifeless hair. The nourishing ingredients and targeted scalp care techniques used in our Korean Headspa help to strengthen each hair strand, resulting in smoother, shinier, and more manageable hair. The treatment works to repair damage, enhance moisture retention, and promote a healthy, beautiful texture.
- Stress Relief: In today's fast-paced world, taking time for self-care is more important than ever. The Korean Headspa is not just about hair and scalp health; it's also about providing a sanctuary for your mind.

The combination of soothing massages, calming environment, and personalized care allows you to disconnect from daily stresses and reconnect with yourself.

# Korean Head spa

## What is included in the treatment?

### What is included in the treatment?

Your treatment is personalized and follows 10 to 14 steps that flow together for a complete scalp care experience. We start with a scalp analysis, followed by nourishing oiling and massage, using stimulating tools to enhance circulation. A detox treatment, combined with neck and shoulder massage, leads into a series of deep cleanses and conditioning. The session finishes with relaxing hydrotherapy.

\* Can I have a service done if I have hair extensions?

Yes, of course! Ideally, we recommend scheduling an appointment between your hair extension maintenance visits. However, many of our repeat clients enjoy our services with hair extensions

• Does this treatment work for all hair types?

Yes, our treatments are designed to be effective for all hair types.

We welcome everyone to experience the magic of this Head Spa.

Can I receive a treatment if have psoriasis or other scalp conditions?

Yes, we welcome clients with psoriasis, dermatitis, eczema, and other scalp conditions . Our treatments are tailored to provide relief and enhance scalp comfort. However, we recommend consulting with your healthcare provider before booking to ensure that our services are appropriate for your specific condition and needs.

- Can I receive head spa treatments if I'm pregnant? Please be aware that our services require you to lay on your back for an extended period of time While our treatments are generally safe and gentle, we highly recommend consulting with your doctor before booking if you're pregnant. It's always best to get approval from your healthcare provider to ensure the treatment is appropriate for you

Please note:

We do not recommend a head spa treatment immediately after a colour or perm,  
as it may affect the results.

Deep cleansing may loosen curls or cause colour to fade faster.

90min- k1600

Includes blow dry

All makeup used is high end such as  
channel huda beauty Nars , Dior ,  
Laura mercier etc)

Please note that any bookings  
requested for before 7am attract an  
additional cost of k500 per person

NOTE: Kindly inform me prior to the  
date of booking if there are any  
makeup products you are or may be  
sensitive towards in order to  
properly assist you.

Please note that if you are late by 20  
minutes, you will be charged an  
extra K100 ontop of your total bill. If  
you are late by 20 minutes or more  
your booking will be cancelled.
